Why Illusions Vinyl Fence?

Because Your Home Deserves the Very Best!

You've done everything in your power to make your home fit your unique style.

Why would you settle for less from your fence?

You wouldn't. That's why Illusions Vinyl Fence is the perfect fit for your next fence installation. It's got everything you need all rolled up into a simple and affordable package.

Part of the Eastern Fence Family, our company is based on Long Island, NY, and we have been manufacturing and distributing fence and railing products for almost 50 years. Nobody but nobody has more vinyl color and woodgrain than Illusions.

Designed with the sole purpose of allowing your creativity to flow, Illusions Vinyl Fence, Grand Illusions Color Spectrum, and Grand Illusions Vinyl Woodbond Series of vinyl fence products are the next step in the evolution of a product. Never before has fencing been done with such a huge degree of choices.

With 36 principal colors, 5 completely authentic woodgrains, and the ability to match a color of your choosing, you now have the perfect solution for your deck and railing. Both Grand Illusions Color Spectrum and Grand Illusions Vinyl WoodBond have a beautiful low gloss finish as well.

Why Illusions Vinyl Fence?

Vinyl Manufacturers Association (VMA) Certified

As a Vinyl Manufacturers Association (VMA) certified company, Illusions Vinyl Fence is routinely tested and regulated to maintain the most stringent guidelines of quality and consistency in the fence industry. This is extremely important to you, the consumer, because VMA certified products must be made from 100% Pure Virgin Vinyl which is a structurally superior and longer lasting product than vinyl made from recycled plastics.

ASTM F964-13 Compliant

ASTM F964-13 is considered the most recognized testing specification for vinyl.

The purpose of this specification is to establish a recognized standard of quality for exterior vinyl profiles for use in assembling agricultural, commercial, and residential fencing and railing.

QuickShip™ InStock NO-WAIT Program

Got an important party coming up and need a fence quick?

We've got your solution. All styles of Illusions Vinyl Fence with the **QuickShip** logo and their matching 4' and 5' wide gates are in stock and available for immediate shipment.

Ready to Specify

Illusions Vinyl Fence styles are available on www.CADDetails.com to help you immediately specify for commercial and residential installations. Spec sheets, CAD files, PDFs, and more are ready to help you get your Illusions Fence installed today!

Made in the U.S.A.

Manufactured by Eastern Wholesale Fence of Medford, NY, Illusions Vinyl Fence has been a household name in the fence industry for almost 30 years and is proudly manufactured in the United States of America.

Warranty

The best looking products in the industry give you a great warranty as well!

Classic Illusions Fence is protected by a comprehensive limited lifetime warranty, and Grand Illusions Color Spectrum and Grand Illusions Vinyl WoodBond products are protected by a twenty year pro-rated warranty. For details and warranty related questions, please visit the Illusions fence website at www.illusionsfence.com.

www.illusionsfence.com

Fence Specifications

WHAT IS ASTM F964-13?

Scope

ASTM F964-13 is considered the "end all, beat all" testing specification for vinyl fence. The purpose of this specification is to establish a recognized standard of quality for exterior vinyl profiles for use in assembling agricultural, commercial, and residential fencing and railing. This specification covers Illusions Vinyl Fence sections and the EverStrong Profiles® used to fabricate them.

Materials

Illusions Vinyl Fence Products are manufactured using Rigid Poly Vinyl Chloride (PVC) compounds for exterior-profile extrusions that meet the requirements of ASTM Specification D4216.

Manufacture

Illusions Vinyl Fence Products are manufactured to meet cell Class 3-30233-23 as defined in Specification D4216. Illusions compounds have higher cell classification because one or more properties are superior to those used in standard acceptable compounds.

Color/Consistency Testing – The PVC compound in extruded section shall maintain uniform color and be free of any visual surface or structural changes, such as peeling, chipping, cracking, flaking, or pitting after weathering at intervals of six months and one year for white and for six months, one year, and two years for all other colors in hot, dry climate such as Phoenix, AZ; a hot humid climate, such as Miami, FL; and a temperate northern climate, when tested in accordance with ASTM Performance Weathering Requirements (TABLE 1).

Weathering Testing – The PVC compound shall have a minimum impact resistance of 0.6 in.-lb/mil (2670 J/m) after weathering six months and one year in a hot, dry climate such as Phoenix, AZ; a hot, humid climate, such as Miami, FL; and a temperate northern climate, when tested in accordance with ASTM Performance Weathering Requirements. The PVC compound shall have successfully met the weathering requirements prescribed for six months at each climatic testing site prior to use in production of exterior-profile extrusions, when tested in accordance with ASTM Performance Weathering Requirements (TABLE 1).

ASTM Specifications Met

D256 - To determine Izod impact properties
D618 - Practice for Conditioning Plastics for Testing
D635 - Test Method for Rate of Burning and/or Extent and Time of Burning of Plastics in a Horizontal Position
D638 - To determine tensile properties
D648 - To determine heat distortion temperature
D696 - Test Method for Coefficient of Linear Thermal Expansion of Plastics Between 030°C and 30°C with a Vitreous Silica Dilatometer
D790 - To determine flexural properties
D792 - To determine specific gravity
D883 - Terminology Relating to Plastics
D1435 - Practice for Outdoor Weathering of Plastics
D1600 Terminology for Abbreviated Terms Relating to Plastics
D1784 - Specification for Rigid Poly (Vinyl Chloride) (PVC) Compounds and Chlorinated Poly (Vinyl Chloride) (CPVC) Compounds
D1898 - Practice for Sampling of Plastics
D2240 - To determine Shore hardness values
D2244 - Practice for Calculation of Color Tolerances and Color Differences from Instrumentally Measured Color Coordinates
D2565 - Practice for Xenon-Arc Exposure of Plastics Intended for Outdoor Applications
D4216 - Material Class Number 1-32333-3. To establish Cell Classification of PVC material. Illusions compounds have higher cell classification because one or more properties are superior to those used in standard acceptable compounds
D4226 - Test Methods for Impact Resistance of Rigid Poly-(Vinyl Chloride) (PVC) Building Products
D4726 - Specification for Rigid Poly(Vinyl Chloride) (PVC) Exterior-Profile Extrusions Used for Assembled Windows and Doors
E-84-04 - Used to determine the flame spread value of PVC material; Illusions burn rate is significantly lower than allowed value

Quality Assurance

Illusions Vinyl Fence Products are run through dimensional tests at the startup of a production run and every two hours thereafter including flattening, extrusion quality, impact resistance, warp, color comparison with standard color samples, capstock thickness, and bond testing will be done at the startup of a production and once per shift thereafter with a minimum of two tests per 24 hours of production.

TABLE 1 - Required Exposures for PVC Extrusions - In Process

Color of PVC Extrusions	Exposure Climate	Required Exposure Times, Months*
White	hot, dry (Phoenix, AZ)	6 and 12
	hot, humid (Miami, FL)	6 and 12
	northern temperate	6 and 12
Any other color	hot, dry (Phoenix, AZ)	6, 12 and 24
	hot, humid (Miami, FL)	6, 12 and 24
	northern temperate	6, 12 and 24

*It is recommended that separate specimens be used for each exposure time.

The VMA (Vinyl Manufacturers Association), is the Voice of the Vinyl Fence and Railing Industry and this is their certification logo. VMA Certified Illusions Vinyl Fence products meet or exceed industry standards.

THESE ARE THE RESULTS FROM AN ACCELERATED WEATHER TESTING CHAMBER IN LABORATORY CONDITIONS

The Illusions® Vinyl Fence Advantage

This test is run according to ASTM Standard G-155, Cycle #1. All Illusions® Vinyl Fence Product is guaranteed to be made from 100% Pure Virgin Vinyl and assembled according to ASTM F964. Please note the difference in color retention and be assured, Illusions® Vinyl Fence will have uniform color and be free of any visual surface or structural changes such as: peeling, chipping, cracking, flaking, or pitting after weathering.

Be assured! Insist on Illusions® Vinyl Fence Products.
